The University of Florida College of Pharmacy offers flexible, online programs that help you advance your career. Ideal for working professionals and those interested in a career change, the online pharmaceutical outcomes and policy program provides a graduate certificate or a Master of Science in Pharmacy degree in one of four focus areas:

- **Applied Pharmacoeconomics**
- **Managed Care Pharmacy Systems**
- **Patient Safety in Medication Use**
- **Pharmaceutical Regulation**

Coursework is offered in accelerated seven-week academic terms, allowing students to focus intensively on one course at a time and still complete up to six courses per year. Live, webinar-style discussion sessions are scheduled for evenings and weekends to accommodate work schedules.

**MASTER’S DEGREE**
- 30 credits
- Minimum admission requirements: bachelor’s degree in any academic discipline, 3.0 upper-division GPA and acceptable GRE scores
- One campus visit for the final exam and weekend seminar
- Tuition: $22,500 plus fees

**GRADUATE CERTIFICATE**
- 13 credits
- Minimum admission requirements: bachelor’s degree in any academic discipline, 2.5 upper-division GPA
- Entirely online
- Tuition: $11,250 plus fees
